

Alabaster

“I suddenly remembered I was supposed to be reviewing the amp rather than sitting there transfixed.” hi-fi World Magazine.

A fully integrated hifi separates' amplifier in the true purist tradition of esoteric, British high fidelity the Sonneteer Alabaster sits at the heart of the music system. Plug your music source in, be it a Sonneteer CD player, music streamer, record player or even iPod doc and enjoy the music through your loudspeakers.

The Alabaster has been described as, “ The best amplifier ever made” and we at Sonneteer have spent many an hour, week, month, trying to live up to the high standards we have set with these products.

The Alabaster, with its refined and detailed sound, is suited to the no compromise, serious music lover.

So what is an integrated amplifier?

In any sound or hifi system, from bedside radios, television, to full separates hifi set ups, the amplifier is the sound engine, The sound from the loudspeaker be it through a little plastic grill or giant floor standing wooden boxes would be silenced without the amplifier inside. The Alabaster like other Sonneteer amplifiers is one of these in its own special box integrated with a volume control system and inputs for all your sound making devices.

Features

- Esoteric designs, in the true, British tradition of hifi amplification.
- Purist, straight to volume, direct inputs
- Solid Steel and Aluminium, low resonance chassis
